All of the above Goods and a great many other articles not particularized, will be sold at such prices as will induce customers to call again.

N.B. Every article not suiting either as to price or quality the money paid will be refunded by returning same.

dec 26. dawtf

To the Honorable Samuel Cony, Judge of the Probate of Wills and granting Administration within and for the county of Penobscot and State of Maine.

RESPECTFULLY shews John Peters of the city of Brooklyn, in the county of Kings and State of New-York, that he has been duly approved and appointed Executor of the last will and testament of John Peters of said Brooklyn, late deceased, by the Surogate of the county of Kings aforesaid a certified copy of which approval and appointment he hereby submits for examination. He therefore prays that the same may be filed and allowed and ordered to be transcribed upon the Records in the Registry of Probate for said County of Penobscot.

Dated at Bangor this twenty-eighth day of April A. D. 1845.

JOHN PETERS.
By Geo. W. Ingersoll, his Att'y.

State of Maine, Court of Probate held at Bangor within and for the County of Penobscot on the last Tuesday of April in the year of our Lord eighteen hundred and forty-six.

THE aforesaid John Peters Executor above named, having presented the above petition, Ordered, That the said Executor give notice to all persons interested by causing a copy of the petition and this order of Court to be published three weeks successively in the Daily Whig & Courier, a paper printed at Bangor in said county the first publication to be thirty days previous to the last Tuesday of June next, that they may appear at a Court of Probate to be holden at the Probate office, in Bangor, aforesaid on the first Friday of June next, at ten of the clock in the forenoon, and show cause, if any they have why the prayer of said petitioner should not be granted.

SAMUEL CONY, Judge.
Attest: John Williams, Register.
A true copy of the petition and order of Court.

THE AFFLICTED IN DANGER!
SALUTARY CAUTION.
READ! READ!!

THE well established and well-earned reputation of WRIGHT'S INDIAN VEGETABLE PILLS, as a Sovereign antidote, and cure in cases of Fevers, Head Aches, Indigestion, Dyspepsia, Dysentery, Colic, Female Complaints, &c. &c. has excited the cupidity and envy of the proprietors of other medicines, and since their admirable qualities cannot be impeached, has latterly begun to arm the antagonist efforts of men who took to pass off other medicines by the reputation of Wright's Indian Vegetable Pills.

Beware of all attempts to palm off any (so called) specifics by means of specious sounding and deceptive titles. "SUGAR COATED PILLS" may be pleasant to the palate, but it requires something more than a agreeable exterior to combat with disease. We shall not attempt to analyze the composition of the "Sugar Coated or pretended improved Indian Vegetable Pills," which have been thrown into the market and advertised extensively in the country papers—we have no desire to do so—nor is it necessary. It is, however, our duty to assure the public emphatically, that they are not an improvement on WRIGHT'S Indian Vegetable Pills, and that, whoever purchases them under this supposition is woefully deceived. This caution is positively necessary, since the title (nearly) the qualities set forth, the combination of ingredients, &c. are all those which formed the distinctive and original character of the true and genuine

Remember, buy none but "WRIGHT'S Indian Vegetable Pills," which are protected by a patent. These have attained an almost incredible sale and circulation, owing altogether to their own intrinsic merits. The pub ic are fully aware of the imposition, and envy ins the Laurel from the brow of the inventor of these medicines where it has been placed by grateful thousands who owe their continuance of the enjoyments of the blessings of health to his happy and benevolent agency.

Wright's Indian Vegetable Pills

have performed wonders when used in cases of Intermittent, Remittent, Nervous, Inflammatory and Putrid Fevers, Measles, Small Pox and Erysipelas; Inflammations of the Brain, Throat, stomach, lungs, liver, intestines, kidneys and bladder; pains in the stomach, back and side; consumption, dropsy of the head, of the chest, of the abdomen and of the limbs, scrofulas, scurvy and syphilis; cancer, gravel, loss of appetite; sick headache; rheumatism, both acute and chronic; epilepsy or fits; diarrhea dysentery and colics; syncope, apoplexy and paralysis, dyspepsia, hypochrondriasis, epilepsy, hooping cough, palpitation of the heart; ulcers and sores of every description; hysterics, weak nerves, and low spirits; suppression, and other delicate Female Complaints

No other medicines ever discovered has grappled those horrid forms of disease with such general success. They derive this EMINENT ADVANTAGE FROM THE OF NATURAL MEANS TO COUNTERACT THE EVILS OF NATURE. The bowels of the earth have not been ransacked for poisonous minerals to infect the system under the pretence of eradicating disease. The Fields and the Forests alone have been searched for materials for the healing art. From these have been collected remedies attacking the various forms of disease, and expelling it by the contents provided by the author of the Report—the Lungs, the Skin, the Kidneys and the Bowels. Hence Wright's Indian Vegetable Pills based upon the curative mode suggested by nature, are a Balsamic Diuretic, Expectorant and Purgative.

The origin of this invaluable medicine entitles it to implicit confidence and respect. The nearer we approach to nature, in our researches after health both in science and art, the more complete will be our success in both. Look at the uniform physical condition of the Indian Tribes of this continent whether exposed to the frosts and storms of the North, or to the rain, heat, and pestilential miasma of Southern climate. Houseless, unprotected, exposed to every atmospheric change, every extreme of the seasons, dwelling at times in morasses and by the margins of unhealthy pools and swamps—they yet enjoy an almost total immunity from disease, while the white man, who enjoys all the comforts of civilization, with its attendant arts, is as much inferior to the savage in physical vigor, as he is superior to him in intellectual acquisitions.—How does this happen? Simply because, bereft of the light of science, he relies upon that divine instinct which impels him to select from the produce of the field and forest such remedies which Nature and Nature's God has bounteously provided for the solace of suffering, and the mitigation and cure of disease—sowing them broadcast on every hill and valley. Let those who impiously arraign the good justice of Divine Providence, and point with sneer to the multitude of invalids who lie groaning upon beds of sickness, turn from the false lights of man, and study the secrets of nature, and they will adore that mercy which has so bountifully provided a cure for every wound—*a remedy for all who seek one.*

Disease rarely assumes one form from another, even in any one case—hence the absurdity of attempting to cure by one compounded medicine. Dr. Wright's Indian Vegetable Pills combining a remedy for every form of disease, attacks successfully any combination of malady. This union of powers render these pills thoroughly cleansing in their nature and operations. They cannot fail of affording relief if taken according to directions accompanying them. They may be freely resorted to in the most desperate cases of the diseases for which they are offered remarkable and marvellous cures. They are applicable to a wide range of diseases and their use is not confined to any particular age, or to either sex. They are now triumphantly established beyond the reach of cavil and doubt. Care must be taken in on the part of the public, lest they should suffer from imitations, spurious Pills, palmed off by the help of a class similar to that of the genuine Pills. Therefore, we order more cautious the public against purchasing any but the

GENUINE
"WRIGHT'S INDIAN VEGETABLE PILLS."

These Pills, as we before remarked, operate by purgation—by thoroughly cleansing the entire system from all impurities, and making the invalid, in the homely but expressive phrase, "a new man;" whether the disease is INCIPIENT CONSUMPTION, which insidiously attacks the Lungs, producing that dry, hacking cough so painful to the friendly ear; or Cutaneous, showing itself upon the skin in eruptions or blotches; whether the Kidneys or the Bowels be affected—*Wright's Indian Vegetable Pills* are equally efficacious in warding off danger. Their expectorant, cathartic, sudorific and diuretic qualities enable them to take hold of each form of disease.

The *perfect safety* of the medicine is another all important quality, and one which has contributed more than any thing else to its extension and popularity.

In a word, this medicine commends itself strongly to the patronage of the public, and its use bid fair to become, before long, ALMOST UNIVERSAL.

FOR SALE.
VALUABLE MILLS and Water Power on the city of Bangor and on navigable water. Owing to ill-health, will be sold a portion, say, an undivided moiety of the whole of the valuable mill property, situate at Brewer Village, on both sides of the large Cove, on Brewer Stream; well known as the best stream of its size running into the Penobscot river, fed by a chain of ponds and living springs, one of said ponds which is commanded by these mills, is from three to four miles long and will contain over 2000 acres of water. The stream was never known to fail of a fair head of water, and can be much improved by dams, &c. The mills now erected are in good order, consisting of a double saw mill, rents for $1500 per annum; and a Grist Mill, rents for $500 per annum. These mills run the year round, they are two miles south of Bangor at the head of the Cove, perfectly free from any risk of freshet, by stream or river, as was proved the present season. There is sufficient water power with breast wheels, on this dam for 6 saws, with their hand-lips and circulars for cutting slabs, and which will saw from five to six millions feet per annum. Vessels load at the mill-wharf and the lumber may be assorted at the saw.
There is also a fall of water in said Cove below the present mills, which has been measured by an experienced Mill-Wright, who is responsible and ready to contract to erect a dam and bridge at this place of 12 ft. with tide gates, which could use the water of the stream over again, run mills on Valentine or other suitable wheels 10 feet in size 24. A double saw mill and the grist mill may be placed here at small expense, and this improvement will add much otherwise to the profit of the whole estate. There is a good house, store, and mill house, and many fine river lots for wharfing. In short no property of the kind in or about the growing city of Bangor is more available, or will pay more income upon an outlay of a few thousand dollars than this—it is virtually within the city, and most increase in value with the growth of the same; it has many other privileges, being one of the best locations in N. England for ship building, and ere long will become a manufacturing village.
For terms and other information, application may be made to SAMUEL THATCHER, Jr. attorney, on the premises or GEO. A. THATCHER, of this city. SAMUEL THATCHER.
Bangor, May 12 3tawlm

COPARTNERSHIP NOTICE.
THE subscribers have formed a copartnership in business under the name and firm of
SNOWMAN, SAUNDERS & CO.
for the purpose of repairing, caulking, graving and painting VESSELS of all sizes and classes and they solicit a share of the business. Their yard is in Brewer a little below the Ferry.
JOSEPH SNOWMAN,
LEVI B. SAUNDERS,
GEORGE W. SNOW.
Brewer, May 2. d&w

F. BROWN'S SARSAPARILLA AND TOMATO BITTERS.
THESE excellent Bitters will be found a certain cure in all cases of Indigestion or Dyspepsia, Jaundice, Loss of Appetite, General Debility, Faintness and sinking of the Stomach, Lowness of Spirits, Costiveness, Determination of Blood to the Head, Pain in the Limbs and Side, Diarrhea, Weakness, Dizziness, Cutaneous Eruptions on the face and neck, fever, night sweats, nervous and sick headache. Acidity of Stomach, bilious affections, piles, costiveness, and in all diseases caused by impurity of the blood, the debility of the system or the unhealthy state of the stomach and bowels.
They are also exceedingly efficacious in restoring constitutions broken down by sedentary employments and have been extensively used by Clergymen, Editors, Printers, Clerks, Seamstresses and numerous others whose health has been injured by confinement and close application, with the happiest results.
They restore the action of the stomach, increase the quantity of the blood and impart to the wan and emaciated system of the invalid the vigor and gl

FRIDAY, MAY 29, 1846.

Weekly Excursion to Castine.

On referring to our advertising columns it will be seen that the new, convenient and beautiful river boat Tarratine, under the command of Capt. Smith, a great favorite in all the river towns, will make her first excursion for the season to Castine and among the Islands, it being the first trip of the arrangement for a weekly trip

This is a capital arrangement, and will enable our people and the good people of the neighboring towns to make up pleasant parties once a week with a certainty of the boat starting every pleasant Wednesday, or if the weather be unpleasant, on the following day, should that be pleasant. Invalids and families, schools, associations, and all persons will thus be furnished with an opportunity, long needed, of visiting Penobscot Bay and getting a snuff of the salt sea breeze, and driving the cobwebs of care from their minds, and gaining new strength and happiness.

This is an arrangement that cannot fail of being highly satisfactory to our people and to all the people upon the river. Any family can make arrangements for visiting Castine or any of the islands, and stopping a week, if they please, being sure of a boat in which to return. We certainly hope the enterprise will be well sustained, and that henceforth a trip will be made each week to the charming town of Castine, and the beautiful Penobscot Bay, and that the good people in all the towns on the river will become better acquainted with each other and resort to this as one of their pleasant modes of enjoying social intercourse

☞ The workmen have commenced their labors in rebuilding Penobscot Bridge and the work will be forwarded with all despatch, and will be executed in a very thorough manner

This bridge has been of great convenience to the public, and has never paid a great interest The proprietors are disposed to rebuild it permanently and to maintain it in good order, but it is feared that the efforts made to establish a steam ferry will prove highly injurious to this property We have not taken the pains to investigate this matter fully, but we have repeatedly heard that fear expressed, and so great are the conveniences attending the maintenance of the bridge, that we should greatly regret seeing any measures taken likely to discourage the proprietors in sustaining it

☞ The erection of the new Market House is going forward finely It is three stories high, and will be every way superior to that swept off by the freshet—much more convenient and a greater ornament to the city The third story will make a magnificent hall for public uses

Pushaw House.

Messrs Burgess & Gould have opened their admirable establishment at Pushaw Lake for the season Boats and other matters are in ample order, and sailing and fishing, and gathering berries, and enjoying good fare, and the really comfortable matters of the Lake may be easily secured by our busy folks who can steal away occasionally for the purpose of shaking off the dust of dull care

☞ We learn that Rev Mr Hedge of this city, has received a strongly tempting call to settle in New Bedford. We should greatly regret losing Mr Hedge from our city, but the offers we learn he has received from New Bedford are sufficient to cause fears that he may be induced to accept them

The commercial news from New Orleans up to the 16th inst is distressing Alarm and distrust pervade the commercial community Exchanges, difficult of negotiation Price of produce falling rapidly, Flour down to two dollars seventy-five cents, Corn to 32 cents Real Estate dead Money tight The war gives to foreign shipping the preference in freights and also a higher rate than American shipping can command.

☞ Four score Lowell Girls have gone to the Washington Fair, where they will take part in exhibiting goods of their own manufacture If Congress would only vacate the Capitol awhile, and let these girls take charge of the Government looms, the People's cloth would no doubt be better woven

☞ The experiment of burning lime at Norridgewock has proved successful It was begun in a quiet way and has been pursued with caution and skill, and will, by and by, prove profitable to the manufacturer as well as highly advantageous to the community It is a good application of home industry

☞ Gov Anderson will probably issue his proclamation for volunteers to engage in the Mexican war Should there be any deficiency in the volunteers, probably a draft must be resorted to, and arrangements will probably be made to obtain a portion from each voting plantation and town, so that our friends in Aroostook county may have a fair chance

☞ We have received two numbers of a neat and spirited paper published by E Marchant, at Edgartown, Mass., entitled "The Vineyard Gazette" It is neutral in politics and designed as a miscellaneous family paper

At Westmouth in Canada, on the 5th May, the dwelling house of Joseph Creswell was consumed by fire, and three of his children burned to death, another injured so badly as not expected to recover, and an infant injured The poor mother when made acquainted with her loss became deranged.

☞ Ten thousand Mormons have left the State of Illinois, and the rest are following as fast as possible, and yet the persecuting spirit of the people there is disposed to attack them. A proclamation has been issued against the outlaws

☞ The papers now state that the American loss in the fort opposite Matamoras was 2 or 3 and not 253. It is probable that the Mexican loss in the battles on this side of the river, and in Matamoras was much less 1500

☞ We have received a letter from Professor Bush, which will appear to-morrow

☞ Col Pitchylin, the Choctaw chief now at Vicksburg, has declared his determination to raise 1000 warriors of his nation, and offer their services to the government to march across Texas to Mexico.

☞ Gov Briggs has issued his Proclamation and General Order for raising one volunteer regiment of Infantry, of ten companies and 777 men, for the United States service, to be called the First Regiment of Massachusetts Infantry

The Louisiana Legislature have appropriated $2000,000 more to meet the immediate expenses of the volunteers which are constantly arriving at New Orleans making $200,000 in all thus appropriated

The War News is not at all altered in its appearance by the last arrivals, which are from New Orleans to the 18th Volunteer companies continued to arrive at New Orleans from the interior

☞ Our thanks are due to E C Hyde, the gentlemanly clerk of the Steamer Governor, for a Boston paper received yesterday in advance of the mail

☞ The yellow fever is raging at the Cape de Verde Islands. A British steamer which touched there is said to have lost seventy or eighty men

☞ The National Cadets at Providence, R I, and the Mechanic Phalanx at Lowell Mass, have tendered their services for the Mexican war

☞ This is the week of the anniversaries of the New England religious and benevolent associations The meetings are in Boston and attract much attention

☞ Gen de La Vega, Mexican prisoner, and his aid, and others, are in New Orleans on parole

☞ An awful tornado was experienced at Grenada, Miss, on the 8th of May, and fifty persons were killed and wounded, and a large amount of property destroyed

The battery at our camp opposite Matamoras, is short of ammunition, and there is not a shell in the place

☞ Babe the pirate has been pardoned by the President

The price of oil and whalebone in New Bedford have increased The fitting out of whale ships for the present is suspended

One of Uncle Sam's men is in Boston beating up for sappers and miners

The Steamer Oregon, having been completely repaired, was to take her place on the New York and Stonington route Tuesday last

Cutting down the Pines—Bangor enterprise operating in New Hampshire.

A correspondent of the New York Tribune, writing from Franconia, N H, under the signature of the "Old Man of the Mountain," gives the following description of the cutting and washing among the Pine trees of this region, and of the enterprise and skill of our fellow citizen, N G Norcross, Esq, who is denominated the "Timber King" The account will be read with pleasure—

"I can't bear to have 'em cut down these glorious old woods I wish you could see some of them, friend Tribune, oh here under the Hay stacks—the south side of them, where the sun comes in warm The great spruces run up there taller than your Trinity steeple, and straight as an Indian's arrow, and they stand as thick as a field of rye And the pines—the white pines—they shoot up there, six feet through at the butt, and a hundred feet before you come to a limb, pines no great Admiral ever had a ship could ride with one of them for a mast—pines, to which the tallest ever hewn on Norwegian hills (as the old teamster used to say) was but a wand

hear 'em fall down the sides of the mountains like these slides, and makes me think, when I hear 'em of the old Trojans and Greeks, the teamster used to tell us about, who fell at the seige of Troy And there's been terrible cutting and slushing among them, these two winters past. If it's kept up awhile longer, there won't be a white pine left standing here—There's been a dragoon of a Down-Easter here, these two winters, with a company of red shirted fellows from the banks of the Penobscot, making terrible havoc among the woods His name is Norcross They call him the Timber King He's a perfect Bonaparte among the pines—he's fell a hundred thousand of 'em, I should guess by the noise, these two winters past and has got 'em all into the river this spring, driving them down to a town in the old Bay State, by the name of Lowell, where they're put up a factory, they tell me Norcross has built him a steam saw mill down there, a purpose to saw up these pines He got 'em down out of the mountains on the top of the last springs freshets, and they lay in the Pemigewassett, at the head of log navigation all last summer He kept them there in a basin This spring he has tapped his basin and let the logs all loose down stream The Pemigewassett is alive with them row, for miles and miles, and Norcross and his red shirters are after 'em down the river like so many hounds It is a sight to see 'em ride these mill logs down the rapids—They'll jump from one to another of them, fifteen or twenty feet at a jump, right in among the white water, and they'll stay on a jamb where the water runs like a mill tail, till the very instant it starts, an then they're off with their long, iron shod hand spikes This Norcross is every where among them, and he has got an eye like a kingfisher

☞ The Providence Journal, alluding to the great National Fair at Washington, says

All the accounts of the great national fair at Washington represent it as being every thing that the friends of American industry could desire in the way of a triumphant vindication of the protective policy. The immense building which has been erected for the display is crowded with the production of American skill and industry and enterprise The most elegant and durable fabrics, the products of the loom, the anvil and the workshop, are piled up in such profuse variety, and are marked at such moderate prices, as to astonish even those who were most familiar with the fertility of American production The exhibition cannot fail to have a good effect, however little may be its influence upon the immediate settlement of the tariff, which has become so involved in the meshes of party that perhaps nothing can save it

It is said of the Marquis of Townsend, that when a young man and engaged in battle, he saw a drummer at his side killed by a cannon ball, which scattered his brains in every direction His eyes were at once fixed on the ghastly object, which seemed wholly to engross his thoughts A superior officer observing this, supposed he was intimidated by the sight, and addressed him in a manner to cheer his spirits "Oh!" said the young Marquis, with calmness but severity, "I am only puzzled to make out how any man with such a quantity of brains, ever came to be here!"

Gen. Taylor's Official Despatch to Gen. Gaines.

The New Orleans Bee of May 18, says

We have been politely favored with a perusal of the official despatch addressed by Gen Taylor to Gen Gaines, dated from his camp on the field of battle, three miles from Matamoras, May 9th, 1846 It does not differ materially from the accounts of the two engagements already laid before the public On the 8th, Gen. Taylor drove the enemy from their position, and occupied it during the night The loss in this conflict was 12 killed and 39 wounded

On the 9th, the army resumed its march, until it encountered the enemy, protected as stated in our extra, by a ravine, with artillery on its right This battery was stormed by Capt May's company of Dragoons The number killed and wounded on our side could not be ascertained Private accounts make the number something over one hundred

In this second engagement, Lieut Inge, of the 2nd Dragoons, Lieut Cochrane, of the 4th Infantry, and Lieut Chadbourne of the 8th Infantry, were killed Officers wounded, Lieut Cols McIntosh and Payne, Captains Montgomery and Hove, Lieutenants Gaters Maclay, Selden Burbank, Fowler of the Infantry

The despatch states that the forces under General Taylor, were 2 300 men, and that they had to contend against 7800 Mexicans of the regular army, and about 2000 irregular cavalry

The fort opposite Matamoras has been nearly incessantly bombarded during one hundred and sixty hours, during which an immense number of shot and shells were thrown in it No material damage has been sustained

Three days later from Mexico.

We find in the New Orleans Commercial Times of the 18th inst, the following particulars from Vera Cruz

By the bark Manilarin, arrived this morning from Vera Cruz, which port she left on the 7th inst, we learn that the U S Squadron sailed from Vera Cruz on the 4th inst On getting under way, the guns of the Castle were all manned matches lighted, ready to fire into them, if any disposition was made towards it—It was generally believed that as soon as it was ascertained that hostilities had commenced on the frontiers, Com Conner would make an attack on the town and Castle; but a larger force would be required than was there

When the Mandarian sailed the U S ship Falmouth was the only vessel in port The Commodore, it was reported, had gone to the Brazos, to assist the army, if needed Every preparation was making at Vera Cruz for its defence, and that of the Castle, heavy guns were being taken over every day. The weather had become very hot The thermometer standing at 96, in the shade

The Vomita had made its appearance

We find in the New York Express the following extract of a letter from Vera Cruz, dated May 7th

"If the Mexican General Arista obeys his orders from his Government, which he will have received by the second of May he will cross the Bravo 20 or 30 leagues above Matamoras and attack General Taylor

This information shows why Commodore Conner started to the assistance of Gen Taylor so quickly

From St. Domingo—Rebellion among the Haytians.

By the arrival of the schooner Tioga, Capt Collins, from Aux Cayes, whence she sailed on the 6th inst, we learn that affairs were becoming more quiet and settled A few days before the Tioga sailed the greatest excitement prevailed, and strong fears were entertained that a band of insurgents would attack the town and many of the inhabitants had their moveable property deposited on board the shipping in port ready to make their escape in the result of a successful attack on the part of the insurgents

This outbreak seems not to have been the result of any dissatisfaction with the present Government, but merely for the sake of plunder and the thirst for blood Several engagements are said to have taken place recently between the insurgents and Government troops, which resulted greatly in favor of the latter, though the statements were so contradictory that it is impossible to ascertain with any considerable degree of correctness the loss on either side The insurgents, however, seemed to be continually retreating before the Government troops, and the report stated they were advancing on Jeremie—in consequence of which troops were despatched from Aux Cayes to that quarter It was thought that in a short time the vicinity of Aux Cayes would be as quiet as any other part of the Island, but the whole country is in such a state of rebellion that it must be a long time yet before peace and quietness will be entirely restored The Eastern part of the Island was quiet by the last accounts President Riche was expected to arrive at Aux Cayes in a few weeks from Port au Prince

Affairs at Washington.

MONDAY May 25 P M

SENATE Petitions and memorials were presented

On motion, the reports from the Treasury and War Departments respecting navigable lands and harbors on the lakes, were ordered to be printed

Mr Dickinson presented the proceedings of the great war meeting in New York city He took occasion to make a few remarks in approbation of them

On motion of Mr Rusk of Texas the Senate took up amended and finally passed the bill establishing post routes in Texas.

On motion of Mr Dix of New York, the Senate then took up the supplement to the war bill, to increase the officers of the army The subject was, however laid aside, and the bill for extending jurisdiction over Oregon taken up.

Mr Benton took the floor He desired he said a new bill framed corresponding with that of the British passed by Congress for the purpose of extending the jurisdiction of that government over its subjects in Oregon He thought such a bill would soon pass the Senate, and hoped that some one would impose it.

The amendment offered by Mr Atchison as to the officers under the bill was the first thing in order

Mr Dix offered the amendments, and Mr Atchison supported them

Mr Mangum spoke some minutes in favor of giving the offices to be filled under the bill, to those already in the army, who had devoted a long time to the service of war He then proceeded to define his position on the Oregon question. He has a full audience of attentive listeners, and is still speaking as this despatch closes

House Mr Brickenhoff moved to suspend the rules to allow him to offer a joint resolution of thanks to Gen Taylor, and the officers and men under his command, for their recent brilliant operations on the Rio Grande and directing the President to give each soldier one month's pay over and above his present pay

The motion to suspend was carried, and the resolution received

Mr Winthrop asked if the official despatches from Gen Taylor had been received. If not, the House, he thought had better wait till the official documents had come to hand before acting in the premises.

On motion the resolution was then referred to the committee of the whole

The House then went into committee of the whole (Mr Hopkins in the chair) and took up the Civil and Diplomatic Appropriation bill

An amendment to provide for the support of sick and disabled seamen in the naval hospitals was offered

The motion to make the appropriation $5000 was adopted.

The amendment is still under consideration Mr Boyd had the floor, and is supporting it, and advocating the establishment of a Hospital at Paducah.

Laura Bridgman.

The Blind, Deaf and Dumb Girl—Report of Dr Howe to the Trustees of Perkin's Asylum for the Blind.

Here is another extract illustrative of the same thing

"Oct 24th At eight o'clock to-day Laura came to me and said, 'Doctor wants you to teach me about motives, what are motives?'

After giving the meaning of the word, I referred her to a story that I read to her last evening It was of a benevolent, kind-hearted little boy, who expended his money in purchasing little comforts for those who needed them, making it his happiness to do good to the poor and unfortunate She was very much interested in talking of the little story of the boy, and of his sister and mother. 'It was good money for George to give nice things to poor people.—Doctor had signed notes to give us this nice large room to be so warm and comfortable; he is very benevolent But Jesus Christ was the most benevolent, we cannot be benevolent as he was 'I cannot be benevolent and do good things to crosy people, and blind and deaf people, and cure them God is very benevolent, he does so many things to make people happy, I then tried to show her how she might be truly benevolent in little things, every day 'I give away many things, said she I convinced her that it was not always a proof of benevolence to give things away During the whole lesson she was very serious and thoughtful, pressing my fingers closely, so that no letter should escape her

'Friday, Oct 25th Laura seemed to be very rude and boisterous, and not easily restrained as usual It was very discouraging to me, and I gave myself up to sad thoughts Laura soon perceived it, and asked why I told her she did not try, so much as I wished to grow still and gentle, though we had talked about it She sat still some time, and then said, I love Mrs Smith best, she is so gentle This was evidently said to troublesome and did not relieve me any This is one of the very few instances when there seemed to be unkindness in the child's heart

But she soon repented After dinner she was up stairs, and was gone for some time when at last she came down and found me, she said she had a nice present for me to make me more happy, and that she would try more to improve She said this very sadly, took the present and exerted myself to appear as cheerful as usual

'The present she brought was a pincushion, one of her choicest treasures

'Lessons as usual Talking with Laura about being kind and benevolent She began to give me a long account of little kind things that she had done After a time, I told her that sometimes people did kind things that their friends might praise them and think they were very kind and benevolent

'We talked of it some time Laura since growing more and more red, yet half smiling, I could see she was applying the remark to herself as indeed she does every thing that she hears of this kind 'Why do I like to be praised? she soon asked I told her that every one did, and that it was right for us to like to have our friends love us, and praise us too, if we were good Supposed the case of two little children, one of whom was very kind to his sister that his mother might call him good, and the other did the same because he was glad to see all happy, &c Asked her which she thought was the best child She has taken a moment and replied 'The boy who wanted to see other children happy

There may be better ways of correcting such faults in children, but there are, certainly many worse ones in frequent use Punishment of the common kind, even that of rebuke might have driven Laura into a habit of deceit which would lead to duplicity, and which could hardly be cured except by herself after her conscience had become active and strong But it will be seen that this very habit prevents the growth of conscience, and too often dwarfs it for ever

This is a subject which cannot be considered too much or too carefully, for the neglect of it lies at the bottom of much of the evil of society

The will and the conscience are born, and the exercise of the will should be to promote the growth and strength of the conscience, as the exercise of the muscles promotes the growth and strength of the bones which support them

If we forbid children to exercise their own free will if we command them to heed our will alone, then we should also supply them with our conscience and make that the companion of our will, But this is evidently impossible consequently, we often punish children because they do not follow our way, and we neglect the training of their conscience and then punish them because it does not guide them aright

Parents have a right to expect obedience of their children in all important matters, moreover, it is their duty to require it, but they have no right to forget or neglect their own duty to them Nature gives to children feebleness of will to fit them for the obedience which we fail not to require and she gives them feebleness of conscience, that our conscience may be for a while their guide, and keep them from undue temptation, but this latter duty we often neglect

Truth is plainer and more agreeable to child than falsehood, and right than wrong—They have a conscience too which tells them which to prefer but it is feeble, because nature did not intend they should rely solely upon it at this, any more than, when giving them a will she intended that they should be independent of us

They have also many faculties and desires and if these are abused in any way, they may become passions which the feeble conscience cannot resist Most children are as pure as I was but the tempting apples are left hanging so thickly around them, that it would be a marvel if they did not eat

Children incline to tell the truth, and tell it unless some strong desire or fear (that is temptation) induces them to lie The general error is in supposing they have no conscience whereas it has been neglected, or we have allowed it to suffer a strain greater than it would bear

Numerous as are the apparent exceptions to this they do not affect the correctness of the principle The laws of descent influence the moral tendencies as well as the bodily forms of children; a man may entail his crooked conscience, as he may his diminutive nose upon his descendants Thousands of parents have eaten sour grapes, and in thousands of children have their teeth set on edge But take the descendants of truly moral ancestors, in a moral society and if they are 'trained up in the way they should go, they will not depart from it

I do not believe that Laura Bridgman is so happily organized as many other children I think she has some constitutional disturbing forces which do not affect others Nevertheless, I am confident that for many years she has never varied from the truth, not served from the right, unless under the influence of what were, to her, strong emptations That such temptations were not kept from her is my fault, or the fault of those circumstances which keep us all so far from perfection

We must not bind upon her or upon other children, greater burdens than they can bear, but if we will act upon the principle that the mind can be be trained to perceive moral relations as quickly as it does material relations, we shall enable her and them to walk uprightly through life I will illustrate my meaning by a reference to the process of training the mind to the study of arithmetic

There are certain immutable relations of numbers, and by long and close attention to these the mind sees, as it were by intuition, what before was incomprehensible. A child at first does not understand the relation between two and three, or that, when united, they make five but by dissecting the five—by counting upon his fingers,—by taking five objects and putting three in one heap and two in another and then united them, or in other ways, the relation is demonstrated to the child, and his mind ever after assents to it as a matter of course But it is by no means a matter of course at first, and the mental faculty by which the relations of numbers are perceived requires greater or less training according to the natural capacity

"Hope Never Dies."

The extraordinary virtues of Wistar's Balsam of Wild Cherry, in the cure of Pulmonary complaints have been attested by so many persons, that he who doubts its efficacy, must be in truth a very skeptic. A remarkable cure of Consumption has recently been effected by this medicine in the town of Chatham in this county, and which was related to us by Dr Hewitt an eminent physician of that town, to whom we have permission to refer A young lady who had long labored under an affection of the lungs and who had been under the care of several physicians, without experiencing any relief was consulted by her friends as to her chances of recovery. She was informed by her medical attendant that she must die. Her own premonitions also pointed to the grave Fortunately, she was induced to send to the Hitchcock Bookstore for a bottle of WISTAR'S BALSAM OF WILD CHERRY, as a last resort in her critical situation Before its contents were exhausted the young lady experienced great relief and by using one bottle was decidedly pronounced out of danger. She is now happy in the restoration of health and bless the day when she first resorted to the use of this healing Balsam

Atlantic and St. Lawrence Rail Road.

Notice to Contractors

PROPOSALS will be received at the office of the Atlantic and St Lawrence Railroad Company in this city from the 17th to the 27th day of June next for the grading, masonry, and bridging, of a division of the road, extending from a point at or near Portland to Royall's river in North Yarmouth—a distance of about eleven miles

Plan profiles, and specifications will be exhibited and the requisite information given at the Engineer's Office in Portland on and after the 17th day of June

Persons offering to contract for the work or any part of it who are unknown to the undersigned or the Directors of the Company will be required to accompany their proposals with references as to character and ability

A further extension of the road embracing a distance of some fifteen or more additional miles will be prepared for and put under contract about the first of August next.

A two story wooden block with two tenements situated on the corner of Central and Prospect sts will be sold at a good Bargain

To let—a Store on Main street Apply to

apr 16 I DENNISON

Every Man should Know

THAT Riches are for spending and spending for honor and good appearance, and that if he will call at

JOHN H. HUNT'S

Elegant and justly celebrated fashionable and cheap

CLOTHING ESTABLISHMENT

He will there learn how much better it is to spend his money at this establishment than at any other both on account of the superior

GARMENTS

he will obtain and the greater

ECONOMY

Of the purchase

It seems to be a great puzzle to many people how it is possible that at this warehouse garments of such richness are sold for so small an amount of money but the reason for it is just this that prime bargains draw custom and increase trade and it is better always to do a large business at small profits than a small business with large profits The public begin to understand the matter and this accounts for the unsurpassed popularity of

HUNT'S

Large Clothing Establishment at the

East End of Kenduskeag Bridge,

In the sale of

READY-MADE CLOTHING,

CLOTHS, CASSIMERES, VESTINGS

AND

Fancy Dress Articles,

The amount of Stock now on hand is very rich and inconveniently large, and must be sold for cash, It consists in part of

100 Frock Coats.
250 prs Doeskin Pants
78 prs black Cassimere Pants.
150 Tweed Coats
400 Satin Vests

—ALSO—

A large assortment of

LINEN BOSOMS, COLLARS, SHIRTS, &c

The chance for splendid bargains will well repay the purchaser for making earnest efforts to reach the sales room of

JOHN H. HUNT, Agent

may 12 E HARRIS, Agent

Folger's Olosamman Ali-Healing Balsam.

ITS COURSE IS ONWARD.

SO great has been the demand for Folger's Olosamman ever All Healing Balsam and it has given such general satisfaction to those who have used it and become acquainted with its virtues that it now stands pre-eminent as a remedy in DISEASES OF THE LUNGS and the testimony which has been given by different persons who have been cured by it is altogether voluntary on their part They have given it as the hope that all who may find themselves in need of this remedy may apply for it without delay

Extract the following letter received from the Rev Mr Shimeall, Pastor of St John's Episcopal Free Church Mr S has not only used the medicine himself, but has witnessed its effects in several very virulent cases of disease The letter will show his opinion of its virtues

Dear Sir Believing it to be but an act of common humanity to those suffering under the various diseases of Coughs, Colds, Hoarseness Consumption Asthma &c to point them to a safe speedy and radical remedy I take pleasure in bearing my testimony to your invaluable medicine called OLOSAMAN, or ALL HEALING BALSAM Of its efficacy I can speak first from my own experience Being subject from exposure more or less to the vicissitude of our climate to frequent attacks of Influenza, Hoarseness, &c I have always found to afford almost instantaneous and always perseverance in its use effectual relief I am particular friend of mine, suffering severely under Asthma and who had despaired of obtaining relief from any human source upon my recommendation was induced to give the OLOSAMAN a trial and he pronounced the effect produced upon him a perfect charm affording him immediate relief In another instance I recommended it to a female friend far advanced in Consumption After the use of the first bottle, her Cough was not only removed, and her appetite and strength restored to such a degree as to astonish all who saw her With a long cherished and firmly established prejudice against the thousand and one specifics put forth in these days, as sovereign panaceas for all diseases It assures you that nothing short of my firm conviction of the claims of your medicine to an origin so respectable, and to the effects of the genuine, satisfied both by my own experience and observation I could not have been induced thus to come forward as a witness in its behalf I have the honor to be sir,

Respectfully yours
R C SHIMEALL

HAVE YOU A COUGH

which is troublesome and has not yielded to any of the nostrums which you have used Is it attended with Pain in the Side Shortness of Breath and Night Sweats

DO YOU RAISE BLOOD

when you Cough and find your strength gradually failing? You will find that these symptoms if not properly attended to, will terminate in Consumption and Death Are you troubled with that distressing complaint ASTHMA which deprives you of your rest at night, and renders life burthensome

HERE IS THE REMEDY

Remember the name and place when you wish to be obtained, and do not be put off with any other It has produced a cure in the desperate cases as yours may appear to be, and doubtless will put to flight in a speedy manner those distressing symptoms which fill your minds with gloomy forebodings of the future.

ITS HEALING PROPERTIES

do not deceive The short day cough is quickly overcome, and they and healthy expectoration takes its place Spitting of Blood is immediately checked Night Sweats, with pain in the side and chest debility and difficulty of Breathing, yield in a short time Asthma, with all its dreadful accompaniments is at once relieved Bronchitis, and in fact all the diseases of the Throat and Lungs, give way before this Remedy when all other means have failed

Persons may attempt to deceive you with some other remedy, pronouncing it to be equally as good, but remember life is at stake therefore BE NOT DECEIVED

CHRISTIE'S GALVANIC RINGS AND MAGNETIC FLUID.

THIS remarkable discovery comprises an entirely safe and novel application of the mysterious power of Galvanism as a remedial agent. The Galvanic Rings if connected in with the Magnetic Fluid have been used with entire success in all cases of RHEUMATISM, acute or chronic, applying to the head face or limbs Gout Tic Doloreux, Toothache, Bronchitis Vertigo Nervous or Sick Headache, Indigestion Paralysis Palsy Epilepsy Fits Cramp Palpitation of the Heart, Apoplexy, Stiffness of Joints Spinal Complaints Lumbago Neuralgia Nervous Tremors, Dizziness of the Head, Pains in the Chest and Side General Debility Deficiency of Nervous and Physical Energy and all Nervous Disorders In cases of Dyspepsia which is simply a nervous derangement of the digestive organs they have been found equally successful The Rings are of different prices being made of all sizes and of various ornamental patterns and can be worn by the most delicate female without the slightest inconvenience

The Galvanic Belts, Bands, Bracelets, &c.

Are modifications of the invention and are recommended in more chronic cases of diseases, where the Rings do not possess sufficient intensity or power They are adapted to the waist arms, wrists ancles chest or any part of the body with ease — Any Galvanic power that is required may thus be obtained and no complaint which the mysterious agent of Galvanism can effect will fail to be permanently relieved

Christie's Magnetic Fluid.

Is used in connection with the Rings and their modifications This compound has been pronounced by the French Chemists, to be one of the most valuable discoveries of modern science It is believed to possess the remarkable power of rendering the nerves sensitive to Galvanic action by this means causing a concentration of the influence at the seat of disease and thus giving rapid and permanent relief

Christie's Galvanic Strengthening Plasters

These articles form an important addition to the Galvanic Rings, acting upon the same principle but having the advantage of more local application As an effectual means for strengthening the system when debilitated by disease or other causes, as a certain and in constitutional weakness, as a preventative for colds, and in all affections of the chest generally, the *Galvanic Strengthening Plasters*, will be found of great and permanent advantage

HOME CERTIFICATE

These testimonials all of which are from the most respectable sources have been selected from several hundred of a similar character which have been procured during the short time the discovery has been before the American public

Nervous Headache and Rheumatism

Mr JACOB A OGSBURRY, No 162 William street New York has been affected from childhood with almost constant Nervous Headache and Rheumatic pains in the legs and arms He was also troubled with great nervous debility and indigestion Mr Ogsburry tried the Galvanic Rings and Magnetic Fluid and states that after a few hours the application appeared to strengthen his nerves entirely relieved his headache and I have had no relapse of the Rheumatism since the first day

Tic Doloreux

The following testimonial is from *Timothy C Dwight Esq* who is so favorably known from his exertions in the cause of education throughout the Northern States

Dr A H Christie—Dear Sir—For several years I have been terribly afflicted with that agonizing complaint called Tic Doloreux principally affecting the sciatic nerves At times, no human being can have suffered more—my screams have often disturbed the neighborhood By simply wearing one of your Rings on each of my hands and faithfully using the Magnetic Fluid the complaint has entirely left me and I now believe myself completely cured. I am very respectfully yours

TIMOTHY C DWIGHT

Albany, Dec 4, 1845

Mrs Mary Lonyeastle, widow of the late Prof Bonyeastle, President of the Virginia University, residing at Mrs Shepard a Pennsylvania Avenue, Washington D C, has also been permanently relieved of severe Tic Doloreux affecting the face

Convulsions and Fits

Dr A Christie—Dear Sir—I feel it a duty to state for the benefit of the public that your Galvanic Remedies as applied by the Rings and Magnetic Fluid have entirely cured my son now eleven years old of the most severe and alarming Fits to which he has been subject for the last six years He has often had from 12 to 16 fits in one day sometimes accompanied with the most dreadful screeching at the same time a choking in the throat and pain in the region of the heart His mother and myself have long despaired of his life, but through the means of Providence and your remedies, he is now quite well and I sincerely believe his cure will be permanently

I am very respectfully yours
GEORGE WHITE, 101 Charles st

New York, Nov 14 1845

A child of the Rev S R Bosworth, the well known minister of the Methodist Episcopal Church residing at 80 Division-street, New York, has been subject to Fits since birth He has generally been attacked in the night and has several times been supposed to be dead The use of the Galvanic Bracelets and Fluid has caused their complete disappearance The system being much weakened by the frequent attacks the Galvanic Strengthening Plaster was recommended, which was used with the happiest result

Sick Headache

The following certificate is from a lady of Capt John E Strain one of the most respectable citizens of Albany N York Reference can be given to many others mostly ladies who seem peculiarly affected with this malady

This is to certify that I have been afflicted for several years past with the Sick Headache, which distressing complaint has confined me to the bed from one to two days in the week during that time For one month past I have worn Dr Christie's Galvanic Rings, and occasionally using the Magnetic Fluid I am happy to say that I have not been troubled with the sick headache since

ANNE STRAIN 67 Dewitt st

Albany, Dec 9, 1845

Mrs J Trenor, wife of the celebrated Dentist, No. 4 College Place N Y, sent for the Rings and Fluid during the continuance of a severe attack of the Sick Headache to which she has long been subject In five minutes after applying the Fluid the pain entirely left, and since then, there has been no return of the complaint

Epilepsy and Palpitation of the Heart

The following case relates to a Clergyman the son in law of Mr John Jacob Astor, of New York Rev John Bristed Minister of the Episcopal Church at Bristol R I, residing in Main st has long been subject to distressing attacks of Epilepsy often falling down insensible The disease has been accompanied with violent Palpitation of the Heart and a rush of blood to the heart For three years he has been unable to preach or attend to his other duties Mr Bristed has found the most valuable benefits from the Rings, Bands and Fluid is better in every respect than he has been since his illness, and is now rapidly recovering his health All symptoms of Epilepsy have left him

Rheumatic Gout

To Dr Christie—Sir—After a fair trial of almost everything, without any good effect, I think I must attribute a remarkable cure to the power of your Galvanic and Magnetic articles If I am not mistaken in the cause, they have very seriously relieved me of Rheumatic Gout, of long standing, together with general nervous debility of the system

MRS. MARY JACKSON,
109 Bank-st N York

Mrs Jackson is a relative of Major M M Noah, who has kindly added the following—

Dear Doctor—The above case is personally known to me, and is not less strange than true It is a happy result, to which I bear witness with pleasure I may state that several other cases have come to my notice of a nature equally fortunate and successful Very sincerely yours,

New York Oct 30 1846 M M. NOAH.

Apoplexy and Paralysis

The following case is of a deeply interesting character, and has attracted the attention and examination of some of the first physicians of New York and Brooklyn.

Capt. ANDREW J F TOMES, residing at No 70 Bridge street, Brooklyn, L. I, is in his 70th year He has generally enjoyed robust health, but about 3 years since, it began to fail, a general weakness and lassitude affected him, accompanied with depression of spirits, loss of appetite, inability to sleep, &c Dr JOHN W HAMMIS, of New York, was consulted The usual remedies, such as copious bleeding, &c, were recommended, but about 3 days after Capt. Tomes fell down insensible in the street, with a severe apoplectic fit On recovery he noticed that a portion of his side was apparently dead, and on further examination his physicians pronounced his case to be that of combined Apoplexy and paralysis He was now unable to walk without assistance he could neither feed nor dress himself nor he was unable to articulate distinctly and his sight was impaired The family of Captain Tomes were induced to try the Galvanic Rings and Magnetic Fluid, and for this purpose procured a pair of Rings for the hands, a pair of Bands for the limbs and one bottle of the Fluid In twenty four hours after using these articles, feeling was perceptible in the paralysed parts, and perspiration broke out In 10 days he was enabled to raise his arm and use his hand and in three weeks he was enabled to walk alone A period of nearly six months has now elapsed during which time no symptom of Apoplexy has been apparent, he is enabled to take regular exercise, and all his impaired faculties have been restored

Severe Rheumatism

Mrs Eliz Mellen No 90 Pine street, between Rachel and Buttonwood Philadelphia, had been completely cured of the most severe attacks of Rheumatism for which she had tried everything in vain The extreme pain would often compel her to rise ten times in a night and her hands were drawn up so as to be perfectly useless. After using the Rings and Fluid she only felt the pains entirely left and has not had the slightest attack for several months

Dr Christie is in possession of nearly one thousand testimonials received from persons who have been entirely cured of the most severe Rheumatism Gout Chronic and Inflammatory for which every other remedy was useless The Rings and Fluid when properly applied have never been known to fail in any of those cases

Beware of spurious imitations of the above articles which are offered by unprincipled persons The only place in New York to obtain the genuine Rings and Fluid is at 135 Fulton street Sun Building, All sold elsewhere in this city or New Jersey are entirely devoid of any therapeutical effect

The Sugar-Coated Pills!

A NEW SARSAPARILLA PREPARATION.

To cure Diseases, Purify the Blood! To avoid them, keep it pure!!

That THE DISPOSITION which exposes the human frame to the infection and virulence of every class of disorders proceeds directly or in directly, from a morbid state of the system caused by

IMPURE BLOOD.

HALSEY'S SUGAR COATED MAGIC LIFE PILLS The originator of the only true and genuine Sugar coated Pills most respectfully informs the enlightened public that this new and elegant preparation can be obtained only from authorized agents and at the proprietor's establishment No 323 Broadway N York —Price 25 cents a single box 5 boxes for one dollar

G W LADD Agent for Bangor

Among the numerous remedies which stand repatable on the basis of an ancient name, are none perhaps which have acquired so great celebrity and extensive use in so short a time as this invaluable article —They have gained their high reputation, alone by their good works Those who once try them always use them again They are grateful to the stomach,—they improve the functions of secretion nutrition and circulation They restore digestion and appetite, and create a natural warmth inwardly, which flows through the whole system giving it greater vitality and animation The experience of thousands attest to their good effects After using them for a short time the hitherto wretched invalid finds that all disagreeable and unhealthy humors have forsaken his system His digestive organs perform their proper functions, his blood regains its wonted purity the oppressive sense of weakness and pain departs, and his body becomes endowed with renewed strength and vigor while the mind resumes its original vivacity and clearness Such are the results produced by Halsey's Sugar coated Pills the mildest yet most effectual preparation of the class in use

In BILIOUS complaints Costiveness, Indigestion, Dyspepsy, and all other disorders of the stomach they produce the most happy results For Sores, Boils Saltrheum, Tetter, Erysipelas, Eruptions of the Skin Scrofulous complaints and many other like diseases arising from IMPURE BLOOD they have become highly celebrated Hundreds of certificates have been received from individuals who after having taken them for a few weeks, (according to the directions which accompany the box) were cured of the most affecting cases of *scrofulous affections* They give *Good Blood for Bad* Bottles of the boasted Sarsaparillas, contain less of the true virtues of that valuable plant and are less effectual than a single box of these extraordinary Pills In Colds Coughs, Influenza, Sore Throat Headache Giddiness &c, they are recommended with entire confidence the relief in these cases is quick and permanent For Fever and Ague, Fevers Asthma Piles Loss of Appetite Dropsy, Jaundice Worms Looseness General Debility, and many of the various other diseases to which the Human system is liable, they have proved an infallible remedy Their action on the bowels is of the mildest character, even *over doses* never cause griping or unpleasantness yet, they are searching and efficient It is impossible by words to give an adequate idea of the great and good effects these pills produce and their superiority over every other remedy of a similar class, a trial only will explain the wide difference The unhappy invalid after having *tested* but a *single box* of them, will with joy for the unexampled change wrought in his health bear testimony to their uncommon virtues

N B The *coating of sugar* adds nothing to the great virtues of the Magic Life Pills it is their uncommon powers in promoting health, on which all their merits stand, notwithstanding this they are the original sugar coated pills The proprietor makes this valuable improvement to preserve their curative virtues entire as well as to render them pleasant to the taste yet individuals of no integrity have counterfeited other pills coated them and through the base and silly pretension to a patent are distributing them about the country, deceiving the public by disposing of them unjustly through the already acquired reputation and popularity of the genuine *Halsey's Sugar coated Pills* In order to get the true and genuine sugar coated pills, see that the engraved signature (G W Halsey) is on the label of each box and buy only of advertised agents

Cure for Gravel.

DR LEE's Lithontriptic a Pharmaceutical discovery in the combination of vegetable and chemical agents which, when administered not only dissolves calculous concretions, and ejects them from the kidneys and bladder in the urine but also changes the *Diathesis* or tendency in the system to their formation and restores the Constitution when it has become impaired by the frequent attacks of this disease

Persons afflicted with Stone and Gravel in the kidneys and bladder, and with all those symptomatic affections arising from the same, such as Strangury Bloody Urine, Pains in the Kidneys and Bladder, &c will find immediate relief and cure under the use of this remedy

The afflicted at a distance can consult the subscriber (or Dr H S LEE, 18 Hayward Place, Boston) by letter (postage paid) describing their cases giving the leading symptoms which characterize the disease state of the constitution and condition of general health, &c, and immediate attention will be given to all such applications and the remedy with directions for its use forwarded

Terms $5,00 per Bottle

CONSUMPTION.

AND the best medicine known to man for Asthma of every stage Liver Complaints, Bronchitis Influenza Coughs Colds Bleeding of the Lungs Shortness of Breath pains and weakness in the side, breast &c and all other diseases of the

PULMONARY ORGANS.

A very important disease over which this Balsam exerts a very powerful influence is that of a

DISEASED LIVER.

In this complaint it has undoubtedly proved more effectious than any remedy that has been employed and in numerous instances after patients had endured long and severe suffering from the disease without receiving the least benefit from various remedies and when MERCURY has been resorted to in vain the use of this Balsam has restored the LIVER to a healthy action, and in many instances effected

PERMANENT CURES,

after every known remedy had failed to produce this desired effect!

Opinion of a Regular Physician.

Exeter, Me Sept 30, 1845

This certifies that I have recommended the use of Wistar's Balsam of Wild Cherry for diseases of the Lungs for the years past and many times to my knowledge have succeeded by my patients all with benefit all results In two cases where it would seem confirmed consumption had taken place, the Wild Cherry effected a cure

L L BOYDEN Physician at Exeter Corner

NO QUACKERY NO DECEPTION

All published statements of cures performed by this medicine are in every respect TRUE

BEWARE OF COUNTERFEITS AND IMITATIONS The unparalleled and astonishing efficacy of Dr Wistar's Balsam of Wild Cherry still induces some unprincipled persons to palm off spurious mixtures of similar name and pretension for the genuine article

Be careful and get the genuine Dr WISTAR'S BALSAM OF WILD CHERRY Not genuine unless signed by I BUTTS Address all orders to SETH W FOWLE Boston Mass

N. B. DOWNS' Vegetable Balsamic Elixir.

The great Northern Remedy for CONSUMPTION.

Also for the cure of Colds, Coughs, Whooping Cough Croup Bleeding at the Lungs, Bronchitis Catarrh, and all diseases of the Pulmonary or Bronchial Organs

IT is now more than ten years since this incomparable remedy was given to the public with what success the thousands of restored invalids with the universal encomiums of a grateful people afford abundant and gratifying evidence Indeed no medicine has ever with such UNIVERSAL SUCCESS grappled with disease It is its best commendation and to be valued needs but to be known

Its operation upon the system is marked and peculiar from that of most similar preparations

This *EXPECTORANT*, and most essentially aids in the expulsion from the stomach and lung of phlegm and phlematic humors, through the process of expectoration or spitting

It is *SUDORIFIC* and promotes a healthy perspiration thus expelling by the pores of the skin those nauseous fluids and impurities of the blood the retention of which in the system is a prolific source of suffering to the invalid

It is slightly *CATHARTIC* and usually corrects any costiveness attendant upon Pulmonary complaints, while most similar preparations produce a costivity effect thus adding to instead of diminishing that difficulty (See statements of Mr Meader Mr Russ and others, in the pamphlets and hereto)

We do not pretend that the Elixir is a specific for all the ills that flesh is heir to, but we do say and can confirm by incontestible evidence, that for CONSUMPTION it is unequalled Hundreds by its use have been snatched from an untimely grave, and hundreds more, who delayed too long its use, have found even then that relief from suffering which they had vainly sought from every other source

For hard and obstinate COUGHS whether produced by a mere cold the relic of a fever or the result of a more fixed and permanent pulmonary habit it seems the thing needful by its wonderful expectorant quality best loosens the cough and enables the patient to raise with little effort what would otherwise cause hours of hard and labor ous coughing Many persons testify that after having been unable to obtain more than a slight degree of rest for weeks they have on taking the first dose obtained a comfortable night's rest and by continuing its use in a short time have been restored to health

OBSTINATE COLDS AND COUGHS it will usually cure in from two to five days

To persons afflicted with *WHOOPING COUGH* we would especially recommend the Elixir as it relaxes the cough, and saves much of the labor of hard coughing usually attendant upon that disease

ASTHMA We believe it is a generally acknowledged fact, wherever the medicine is known that nothing so generally gives relief—in so great a proportion of instances effects perfect cure in this distressing malady, as Downs' Elixir (See certificates of Mr Carlepton Mr Perkings, and others in pamphlet)

CROUP This dangerous malady in children may be cured by Downs Elixir We speak confidently having never known, among the hundreds of instances in which it has been used, one where it has failed after a fair trial

BLEEDING AT THE LUNGS In this dangerous and formidable disease, the success of the Elixir has been such that we feel authorized in saying no preparation has ever met with similar success It has rarely perhaps never been known to fail where it has been early resorted to and the directions faithfully followed (See statements of Mr Meader, Mr Walker Mr Downs, Aldermen Morison and others in the sheets and pamphlets)

In conclusion we would say, never despair!—Hope on hope ever! If you still doubt of its virtues its efficacy enquire of those who have used it Enquire of the Agents who sell it They generally, either from experience or observation know of its merits and will tell you of its effects—what they have seen and what they know—are entitled to your confidence

Pamphlets and sheets may be had of agents gratis giving a full description of the medicine, &c

may 9

IF YOU HAVE NOT TIME TO PERUSE THIS AT PRESENT, PRESERVE IT FOR A LEISURE MOMENT—IT IS OF IMPORTANCE IN AGAIN PRESENTING IT TO THE PUBLIC

The Dandelion and Tomato Panacea.

THE Proprietor would not claim for it that it is a specific for ALL the diseases to which the human frame is subject but does claim that in all complaints where a purifier of the Blood is required that this Panacea is infallible and its powers are admitted by all who have used it and it has the same testimony of our first Physicians

He would ask for it only, that meed of attention to which the public may deem it entitled—and would prefer that its beneficial results be its sole recommendation and the relief and health which it must accrue to the diseased and suffering from its use should proclaim its virtue

For any of the following complaints the Dandelion and Tomato Panacea is the best remedy that has yet been offered and no article has given such universal satisfaction for Headache Dizziness Sleeplessness Loss of Appetite Indigestion Dyspepsia Erysipelas Salt rheum Jaundice Scrofula Scurvy and all cutaneous eruptions of the Skin Chronic Diseases Rheumatism General Debility or any complaint that HAS ITS ORIGIN IN IMPURITIES OF THE BLOOD

This PANACEA is composed as all must be aware who know anything of the *Dandelion Tomato and Sarsaparilla* its principal ingredients from the most innocent as well as the most efficacious remedies to be found in the Vegetable kingdom, and who does not know that for all those diseases in which a complete and radical change in the composition of the Blood, in the secretions of the Liver and in the formation of the solid parts of the body are required there are no remedies, that will for a moment compare with them

That this is purely a Vegetable composition the public may rest assured, but should any prove sceptical, I can show them the *Vouchers of Eminent Physicians* to that effect who have examined the formula and have tested its virtues

CAUTION.

The purchaser will be careful to see that my name is *signed* on the wrapper of each bottle as there are worthless articles put up in smaller bottles pretended to reduce the same result but are not safe to use Be sure therefore and enquire for Ransom & Stevens' Dandelion and Tomato Panacea, which may be obtained of duly appointed Agents

Manufactured only by JAMES KIDDER Jr Boston and for sale by my appointed agents

PATENTS.

AMERICAN AND FOREIGN OFFICE,

And Agency of the U S Patent Office, Washington

No. 22 State-Street, Boston.

THE subscriber by appointment from the Commissioner of Patents is Agent of the U S Patent Office for the purpose of receiving and forwarding to the same all such models specimens of ingredients and manufactures as shall be intended to be patented, or deposited therein which will be received and forwarded free of expense and risk to their owners, and with all possible despatch The subscriber will prepare Caveats Specifications Assignments and all the necessary Papers and Drawings, will make research into American and Foreign works for establishing the validity or utility of inventions and render advice on all legal and scientific matters respecting the same Patents secured in Europe and other countries

Application at this office inventors are saved the time and expense of a journey to Washington and delays there as well as all personal trouble in obtaining their patents The experience of fourteen years practice—an extensive collection of rare works documents descriptions &c on mechanical subjects and the Patent Laws—and patents of different countries collected at much expense during the long time this office has been established and to which daily additions are being made together with accounts here kept of inventions patented at Washington, enable me to afford important assistance and information to inventors desirous of securing Patents which in other respects might be difficult of attainment

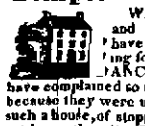
Temperance! Temperance.



WHERE are all the teetotallers and other temperance folks, who have so long and so loudly been calling for a thorough going TEMPERANCE HOUSE in Augusta, and have complained so much and mourned so deeply, because they were under the necessity, for want of such a house, of stopping at rum taverns? Do they not know that the Gage House is, in all respects just such an one as they want? It has been fitted up at great expense, for a public house, it has excellent accommodations and is in a most delightful situation It is now kept by Mr CHAS FREEMAN, a distinguished member of the Sons of Temperance, a very attentive and obliging Landlord who has incurred great and onerous liabilities in order to accommodate the public in this respect—Let them see to it, that he is well sustained
